Work Experience

Software Developer January 2025 – Present
Newel Technologies Pvt. Ltd. *Mumbai, MH*

- Built full-stack fintech apps for wealth-management firms, covering invoicing, compliance, and tracking.
- Migrated legacy .NET apps to a unified Next.js/Nest.js TypeScript stack, cutting feature delivery time by 40%.
- Delivered features across 8+ client projects end to end, from UI design and APIs to production deployment.
- Built reconciliation products that automate manual data work, turning AWS S3 file uploads into instant results.

Technical Skills

AI / LLMs: OpenAI API, Claude API, Gemini, Ollama, Prompt Engineering, Context Engineering
Agents & RAG: LangChain, LangGraph, MCP, Tool Calling, RAG, Embeddings, pgvector
Evaluation & Observability: LLM Evals, LangSmith, RAGAS
Languages: Python, TypeScript, JavaScript, SQL
Frameworks: FastAPI, Next.js, Nest.js, Node.js, React.js
Data & Cloud: PostgreSQL, MongoDB, AWS, Docker, Git

Projects

Axiomic — One-Stop Destination for AI Markdown Files | *Next.js, TypeScript, Node.js, Supabase*

- Building a product where teams create, manage, and share the MD rule files their AI coding agents follow.
- Designed a 5-layer rule hierarchy where narrower layers override wider ones and locked rules can't be.
- Developing an npm CLI that syncs each developer's merged rules into Claude Code and Cursor rule files.
- Set up a TypeScript monorepo with a Next.js app, Supabase backend, and 40+ Vitest tests.
- GitHub - https://github.com/imAshutoshGupta/axiomic

GlyphX — A React Command Palette | *React JS, TypeScript, Vite*

- Built and published an open-source npm package that adds a Spotlight-style command palette to React apps.
- Implemented fuzzy search, configurable keyboard shortcuts, grouped commands, and light/dark themes.
- Supported React 18/19, Next.js App Router, ESM, and CommonJS with full TypeScript types.
- Wrote 100+ unit tests with Vitest and set up CI for linting, type checks, and builds on every push.
- Live Demo - https://imashutoshgupta.github.io/glyphx

Smudge — A Privacy Browser Extension | *JavaScript, Chrome Extensions API*

- Developed a Chrome extension that auto-detects and blurs 10 types of personal data, like emails, cards, and IDs.
- Cut false positives using Luhn and checksum validation for card, Aadhaar, and GSTIN numbers.
- Built click-to-blur and one-click PNG screenshots with blurs applied, including form fields and iframes.
- Persisted blurs across pages and single-page apps via MutationObserver, with zero network requests.
- Live Demo - https://imashutoshgupta.github.io/smudge

Professional Certifications

Master in Full Stack Development with AWS July 2023
IT Vedant Education Pvt. Ltd. *Thane, MH*

Education

Bachelor of Technology (Mechanical) May 2021
Lokmanya Tilak College of Engineering *Navi Mumbai, MH*

Achievements

Winner – Paytm Build for India AI Hackathon – Mumbai 2026
